SAYYED HABEEB RAHIMAN

Data Scientist

Kannur, Kerala, India
+91 9061476623
sayyidhabinp@gmail.com
sayyed-habeeb-rahiman

Summary

Motivated Data Science professional with a background in Sociology and hands-on training in Data Analytics and Machine Learning. Skilled in Python, SQL, and statistical analysis to perform exploratory data analysis (EDA), feature engineering, and predictive modeling. Passionate about transforming complex datasets into actionable business insights through data visualization, dashboards, and AI-driven solutions. Eager to contribute to data-driven projects while continuously advancing expertise in advanced analytics, machine learning, and intelligent systems.

Skills

Technical Skills

Programming: Python
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Databases: MySQL, SQL
Concepts: Data Analysis, EDA, Data Cleaning, Feature Engineering, Machine Learning, NLP, Model Evaluation, Dashboarding
Tools: Jupyter Notebook, MySQL Workbench, VS Code, Git, Power BI, Tableau

Soft Skills

Analytical Thinking, Problem Solving, Communication, Team Collaboration, Time Management, Attention to Detail

Experience

May 2025 – Present **Data Science Trainee**, *Quest Innovative Solutions Pvt Ltd*, Kannur

- Developed and optimized Python-based data pipelines for cleaning, preprocessing, and validating structured and unstructured datasets.
- Performed exploratory data analysis (EDA) and feature engineering to improve model performance and data quality.
- Built interactive dashboards and visual reports using Power BI, Matplotlib, Seaborn, and Tableau to communicate insights to stakeholders.
- Designed and executed SQL queries for data extraction, transformation, and reporting from MySQL databases.
- Implemented and evaluated machine learning models for classification and recommendation use cases.

Projects

2026 – Present **Automatic Resume Screening & AI Job Recommendation System**

- Designing an industrial-level AI system to automatically parse, classify, and rank resumes using Natural Language Processing (NLP).
- Built machine learning models to match candidate profiles with relevant job roles based on skills, experience, and semantic similarity.
- Implemented text preprocessing, feature extraction, and vectorization techniques for resume classification and recommendation.
- Developed a recommendation engine to suggest suitable job opportunities and improve recruitment efficiency.
- **Technologies:** Python, Scikit-learn, NLP, Pandas, SQL

2025 **Employee Management System**, *Quest Innovative Solutions Pvt Ltd*

- Developed a Python-based Employee Management System using Object-Oriented Programming (OOP) to perform full CRUD operations.
- Designed modular class architecture to manage departments, job titles, and employee records dynamically.
- Implemented a menu-driven Command Line Interface (CLI) to improve usability, testing, and system validation.

Education

Data Science with Gen AI, *QIS Academy (Under Quest Innovative Solutions)*, Kannur

Bachelor of Arts in Sociology (B.A.), *IGNOU University*, Study Centre: S.N College, Thottada, Kannur

Certification

- Data Analyst Certification — Roadmap (Aug 2025)
- Data Analytics Job Simulation — Deloitte (Forage, Jul 2025)
- GenAI-Powered Data Analytics Job Simulation — Tata (Forage, Sep 2025)
- Microsoft Office English & Arabic Typing — Integra Computer Education, Mattool, Kannur

Languages

English, Malayalam
